

National Handloom Day is celebrated on August 7th every year in India. It honors the handloom weaving community, highlights the sector's role in socio-economic growth, and commemorates the launch of the historic Swadeshi Movement in 1905. The first official event was held in 2015.

“Through hard work, perseverance, and faith in God, you can live your dreams.”

AI-POWERED RECRUITMENT HOW GLOBAL CAPABILITY CENTRES ARE REDEFINING TALENT

True Observing India

Artificial Intelligence (AI) is transforming the way businesses operate, and one of the biggest changes is taking place in recruitment. Global Capability Centres (GCCs), which serve as strategic hubs for multinational companies, are increasingly using AI to identify, evaluate, and hire skilled professionals. These centres are no longer looking only for candidates with technical expertise; they are seeking individuals who can adapt to rapid technological change, collaborate effectively, and work alongside AI-driven systems. As AI continues to reshape workplaces, hiring priorities across GCCs are evolving to meet the demands of the future.

The Growing Importance of Global Capability Centres

Global Capability Centres have become key drivers of innovation for multinational organisations. Initially established to handle back-office operations, GCCs now manage advanced functions such as software development, data analytics, finance, cybersecurity, research, and product engineering. Countries like India have emerged as major GCC destinations due to their large talent pool, strong educational ecosystem, and expanding digital infrastructure.

With businesses investing heavily in automation and AI technologies, GCCs are playing a leading role in developing intelligent solutions that improve productivity and customer experiences. As a result, their recruitment strategies are becoming more focused on future-ready skills rather than traditional qualifications alone.

AI Is Transforming Recruitment Processes

AI is changing every stage of the hiring journey. Recruiters now use AI-powered tools to screen thousands of resumes, match candidates with job descriptions, schedule interviews, and even assess communication skills through virtual interviews. These technologies significantly reduce the time required to fill vacancies while improving hiring efficiency.

Machine learning algorithms analyse candidate profiles based on skills, experience, certifications, and career progression. This allows recruiters to identify the most suitable applicants quickly and minimise manual effort. AI also helps reduce repetitive administrative tasks, enabling hiring teams to focus on meaningful interactions with potential employees.

Skills Are Becoming More Important Than Degrees

One of the biggest shifts in hiring priorities is the increasing emphasis on skills rather than academic qualifications. While degrees continue to hold value, employers are giving greater importance to practical knowledge,

problem-solving ability, and hands-on experience. Professionals with expertise in artificial intelligence, machine learning, cloud computing, cybersecurity, data science, automation, and software engineering are in high demand. However, organisations are equally interested in candidates who demonstrate adaptability, creativity, critical thinking, and the willingness to continuously learn new technologies.

This skills-first approach opens opportunities for candidates who have gained expertise through certifications, online learning platforms, internships, and industry projects rather than relying solely on traditional educational pathways.

Human Skills Remain Essential

Although AI is automating many routine tasks, human qualities remain irreplaceable. Global Capability Centres increasingly value communication, teamwork, emotional intelligence, leadership, and ethical decision-making. Employees are expected to work effectively with both people and intelligent technologies.

As AI handles repetitive activities, professionals are required to focus on innovation, strategic planning, customer engagement, and solving complex business challenges. Organisations believe that combining technical expertise with strong interpersonal skills creates well-rounded professionals capable of driving long-term success.

Continuous Learning Is the New Career Strategy

The rapid evolution of AI means that today's skills may become outdated within a few years. Therefore, continuous learning has become a critical expectation for employees working in GCCs. Companies are encour-

aging professionals to regularly upgrade their knowledge through online courses, certification programmes, workshops, and practical learning experiences. Many organisations are investing in internal learning platforms that provide training in AI, cloud technologies, automation, and digital transformation. Employees who demonstrate curiosity and a commitment to lifelong learning are viewed as valuable assets capable of adapting to changing business requirements.

Ethical AI and Responsible Hiring

As AI becomes more deeply integrated into recruitment, organisations are also paying greater attention to ethical practices. Recruiters are working to ensure that AI systems remain transparent, fair, and free from unintended bias. Human oversight continues to play an important role in reviewing hiring decisions and maintaining equal opportunities for all candidates.

Responsible AI usage also includes protecting candidate data, ensuring privacy, and complying with regulatory standards. Ethical recruitment practices help organisations build trust while creating a diverse and inclusive workforce.

Artificial Intelligence is redefining recruitment across Global Capability Centres by changing what employers value most in potential employees. Technical expertise remains important, but equal emphasis is now placed on adaptability, continuous learning, collaboration, and human-centred skills. AI is not replacing people; instead, it is changing the nature of work and encouraging professionals to develop new capabilities that complement intelligent technologies.

As GCCs continue to expand their role in global innovation, job seekers who embrace lifelong learning, build practical skills, and remain adaptable will be best positioned to thrive in the AI-driven workplace of the future.

Allenhouse Public School Concludes 5th Edition of ‘Aqualine – Water Wonders’ District-Level Interschool Swimming Championship 2026

True Observing India

Allenhouse Public School, Vrindavan Yojna, successfully concluded the 5th Edition of ‘Aqualine – Water Wonders’ District-Level Interschool Swimming Championship 2026 with a grand valedictory ceremony. The two-day championship brought together more than 600 swimmers from over 70 schools across different cities, providing a prestigious platform for young athletes to demonstrate their talent, determination, and sportsmanship.

The closing ceremony was graced by Anandeshwar Pandey, Treasurer, Indian Olympic Association, as the Chief Guest. Addressing the gathering, he congratulated the winners and applauded all participants for their dedication, discipline, and outstanding sporting spirit. He encouraged the young swimmers to continue striving for excellence and represent the nation with pride in the future.

The programme began with the welcome and felicitation of the Chief Guest, followed by an inspiring address by the Principal. The prize distribution ceremony recognised winners across various age groups and events for their exceptional performances throughout the championship. The event concluded with a heartfelt vote of thanks and the National Anthem, marking the successful completion of another memorable edition of the

championship.

The championship was organised under the leadership of Principal Manisha Anthwal, Vice Principal Barbara Anibosi, and Academic Coordinator Archit Srivastava, whose vision, guidance, and dedicated efforts ensured the smooth and successful conduct of the event. They expressed sincere gratitude to all participating schools, coaches, officials, parents, volunteers, and young swimmers for their enthusiastic sup-

port and contribution.

The successful conclusion of Aqualine – Water Wonders 2026 reaffirmed Allenhouse Public School’s commitment to nurturing young sporting talent and promoting the values of fitness, discipline, perseverance, teamwork, and excellence through sports. The championship once again inspired budding athletes to pursue their dreams with confidence, determination, and unwavering dedication.

AI CONTINUES TO TRANSFORM MODERN WORKPLACES

Artificial Intelligence continues to reshape industries worldwide as organisations increasingly adopt AI-powered technologies to improve productivity and efficiency. Businesses are using AI for customer service, software development, healthcare, education, finance, and manufacturing. Experts believe that while automation is changing many job roles, it is also creating demand for new skills such as data analysis, machine learning, cybersecurity, and digital communication. Companies are investing heavily in employee training to help workers adapt to AI-driven workplaces. Educational institutions are also introducing specialised AI programmes to prepare students for future careers. Technology leaders emphasise that human creativity, critical thinking, and ethical decision-making will remain essential despite rapid technological advancements. As AI becomes more deeply integrated into daily life, governments and organisations are also working on policies to ensure responsible and transparent use of the technology.

City Montessori School, Rajendra Nagar-I Primary Section Celebrates Investiture Ceremony 2026–27

True Observing India

City Montessori School, Rajendra Nagar I Primary Section, proudly organised its Investiture Ceremony 2026–27, celebrating the spirit of leadership, responsibility, and service among its young learners. The event was conducted with great enthusiasm and dignity, inspiring students to embrace their new roles with confidence and commitment.

The ceremony commenced with a warm welcome address, followed by the School Prayer and School Song, creating a solemn and inspiring atmosphere. The highlight of the programme was the Badge Distribution Ceremony, where the Chief Guest, Manjit Batra, conferred badges upon the newly elected members of the Primary Student Council. The young leaders proudly received their badges, sym-

bolising the trust and responsibility bestowed upon them.

The newly elected council members then took the oath, pledging to uphold the values of discipline, honesty, integrity, and dedicated service while carrying out their responsibilities with sincerity.

A significant moment of the ceremony was the symbolic handing over of the School Flag by the outgoing council to the newly elected office bearers, representing the smooth transition of leadership and the continuation of the school's rich traditions. Addressing the gathering, Senior

Principal Jayashree Krishnan, Principal Khyati Lamba, and Headmistress Archana Gaur congratulated the newly elected student council members. They encouraged them to lead by example, uphold the school's values, inspire their fellow students, and contribute positively towards the school's growth and development. The programme concluded with a group photograph featuring the newly elected council members, school leaders, and dignitaries, followed by the singing of the National Anthem, filling the atmosphere with pride and patriotism.

The Investiture Ceremony marked the beginning of a new chapter of student leadership at City Montessori School, Rajendra Nagar I Primary Section, reinforcing the importance of responsibility, teamwork, and selfless service while nurturing future leaders committed to excellence.

HIROSHIMA DAY OBSERVED WORLDWIDE

Countries across the world observed Hiroshima Day to commemorate the anniversary of the atomic bombing of Hiroshima during World War II. Memorial ceremonies, peace prayers, and educational programmes were organised to honour the victims and promote the message of global peace and nuclear disarmament. Leaders, students, and peace activists gathered at remembrance events to reflect on the devastating humanitarian consequences of nuclear warfare. The day also serves as an opportunity to educate younger generations about the importance of diplomacy, peaceful conflict resolution, and international cooperation. Schools and organisations conducted discussions highlighting the need for a safer and more peaceful world. Hiroshima Day continues to remind humanity of the importance of preventing future conflicts and working collectively toward lasting peace.

Seth M.R. Jaipuria School, Kanpur Road Campus Extend a Helping Hand Through Donation Drive for Underprivileged

True Observing India

Seth M.R. Jaipuria School, Kanpur Road Campus, organised a heart-felt donation drive in collaboration with Astradharini NGO to support underprivileged children while fostering the values of compassion, empathy, and social responsibility among its students.

Students enthusiastically donated stationery, school bags, clothes, water bottles, notebooks, pencils, toys, and several other essential items. Every contribution reflected their willingness to bring smiles to children in need and support their education and overall well-being.

The initiative encouraged students to understand the joy of giving and inspired them to become responsible citizens committed to serving society. The overwhelming participation of students, par-

ents, and staff showcased the school's strong commitment to nurturing kindness, generosity, and community spirit.

Principal Poonam Gautam appreciated the enthusiastic participation of the Jaipurians and remarked that even small acts of kindness have the power to transform lives. She encouraged students to continue practising empathy and contributing positively to society through meaningful initiatives.

The donation drive concluded successfully with all the collected items being handed over to Astradharini NGO for distribution among underprivileged children. The initiative left a lasting impact on everyone involved and reaffirmed the belief that every act of generosity creates hope and inspires positive change.

GLOBAL MARKETS WATCH CORPORATE EARNINGS CLOSELY

Global financial markets remained focused on corporate earnings as investors assessed the latest quarterly results from major companies. While several firms reported better-than-expected revenues, weaker future forecasts affected investor sentiment, particularly in the technology sector. Shares of memory-chip manufacturers declined sharply after cautious business outlooks despite strong quarterly performances. Meanwhile, aerospace and manufacturing companies also witnessed volatility following revised revenue guidance. Analysts believe that investors are now placing greater emphasis on future growth prospects rather than current financial performance. Oil prices recorded modest gains amid geopolitical developments, while gold continued to attract investors seeking safe-haven assets. Cryptocurrency markets remained relatively stable with Bitcoin trading near recent levels. Financial experts expect market volatility to continue as more companies announce their earnings and central banks monitor inflation and interest rate trends.

Delhi Public School, Eldeco Lucknow Skater Wins Bronze at UP Open State Skating Championship 2026

True Observing India

Delhi Public School, Eldeco Lucknow, is proud to celebrate the outstanding achievement of Vanya Pathak, who secured the Bronze Medal in the 500-metre Professional Inline Skating Event at the UP Open State Skating Championship 2026.

The prestigious championship was held on 1 and 2 August 2026 in Jhansi, bringing together talented skaters from across Uttar Pradesh. Competing in the 12–15 years age category, Vanya displayed exceptional speed, determination, and resilience to earn a place on the winners’ podium.

Congratulating Vanya on this remarkable accomplishment, Principal Gunjan Sahni said that the achievement reflects

Vanya’s dedication, discipline, and commitment to excellence. She added that the school is immensely proud of her success, which embodies the values of perseverance and sportsmanship nurtured at Delhi Public School, Eldeco. She also wished Vanya continued success in her future sporting journey.

The school extended its heartfelt congratulations to Vanya, her coaches, and her parents for their unwavering support and encouragement. Delhi Public School, Eldeco Lucknow, continues to encourage young talent by providing students with opportunities to excel in academics, sports, and co-curricular activities at the state, national, and international levels.

Jagran Public School, Noida Students Explore McDonald’s “Farm to Plate” Journey

True Observing India

Students of Jagran Public School, Noida participated in an enriching educational visit to McDonald’s under the “Farm to Plate” programme, organised by True Observing India. The visit offered students an insightful experience into the journey of food, from sourcing fresh ingredients to preparing and serving quality meals.

During the visit, students learned about food safety, hygiene standards, quality control, kitchen operations, and teamwork involved in the food preparation process. They also gained a better understanding of the importance of balanced nutrition and responsible food handling

standing of the importance of balanced nutrition and responsible food handling

through interactive sessions and guided demonstrations. The educational excursion provided students with practical exposure beyond the classroom, making learning both engaging and meaningful. The programme aimed to connect classroom concepts with real-world practices while encouraging curiosity and awareness about the food industry.

The visit concluded on a joyful note, leaving students with valuable knowledge and memorable experiences. Organised by True Observing India, the initiative reflected its commitment to promoting experiential learning through educational visits that inspire young minds.

ZZ TOP CANCELS HOLLYWOOD BOWL CONCERT

Legendary American rock band ZZ Top has unexpectedly cancelled its scheduled performance at the Hollywood Bowl, disappointing thousands of music fans. In a brief public statement, the band cited “personal matters” and “insurmountable obstacles” as the reasons behind the sudden decision. While no further details were disclosed, organisers confirmed that ticket holders would receive full refunds, including parking and transportation charges. Fans expressed surprise across social media, with many hoping the iconic band would soon announce a new performance date. The cancellation comes just days before the highly anticipated concert, making it one of the most talked-about entertainment stories of the day. Industry observers noted that last-minute cancellations are rare for major touring acts, adding to the curiosity surrounding the announcement. Despite the setback, supporters continue to express their admiration for the band and wish its members well.

TOUR DE FRANCE FEMMES ENTERS CRUCIAL MOUNTAIN STAGE

The 2026 Tour de France Femmes entered one of its most challenging phases as cyclists competed in Stage 6 from Montbrison to Tournon-sur-Rhône. Covering nearly 153 kilometres, the route featured several steep climbs and demanding descents that tested riders' endurance and strategy. Cyclists battled changing weather conditions while teams worked together to protect their leading contenders. The stage saw multiple breakaway attempts, making the race highly competitive and exciting for cycling fans worldwide. With the famous Mont Ventoux climb approaching in the next stage, riders are carefully managing their energy while aiming to improve their positions in the overall standings. The Tour de France Femmes has become one of the world's most prestigious women's cycling events, attracting elite athletes from different countries and inspiring greater participation in women's sports. Experts believe this year's competition is among the closest in recent history, with several riders still in contention for the yellow jersey.

EDINBURGH FESTIVAL BRINGS GLOBAL ARTS TO LIFE

The world-famous Edinburgh Festival Fringe is drawing thousands of artists and visitors from across the globe as performances continue throughout the Scottish capital. Recognised as the world's largest arts festival, the event features theatre, music, dance, comedy, storytelling, and cultural performances by artists from numerous countries. Streets across Edinburgh have transformed into vibrant performance spaces, attracting audiences of all ages. The festival provides an important platform for emerging artists to present original work while allowing established performers to connect with international audiences. Local businesses are also benefiting from increased tourism, making the festival a major contributor to Scotland's economy.

AI SKILLS BECOME TOP PRIORITY FOR GLOBAL EMPLOYERS

Companies across the world are placing greater emphasis on hiring professionals with Artificial Intelligence (AI) skills as digital transformation accelerates. Organisations are actively recruiting experts in machine learning, data analytics, cloud computing, cybersecurity, and automation to strengthen their technological capabilities. However, employers also stress the importance of communication, teamwork, creativity, and critical thinking alongside technical expertise. Educational institutions are responding by introducing AI-focused courses and industry certifications to prepare students for future careers. Industry experts believe that while AI will automate repetitive task.
